HeXtra19

DESCRIPTION

HeXtra19 is a complementary feed based on a mixture of herbs, vegetable extracts, micronized barley and citrus fruit flavonoids.
Its special formulation acts in the intestine improving its functionality, reducing the proliferation of harmful bacteria and normalizing the digestive system altered by dysmicrobisms. It significantly reduces diarrhoeal phenomena.

COMPOSITION

- Phytotherapy herbs (curcuma longae, phllanthus emblica, mentha piperita, thyme)
- Micronized barley flour

MODE OF ACTION

The specific formulation of HeXtra19 can grant prevention of the mostly diffused diseases of the gastrointestinal apparatus.

- It regulates intestinal peristalsis.
- Improves water absorption reducing enteric diseases, helps decongesting the mucosa and allowing intestinal villi to improve absorption.
- It creates a physical protective barrier on the gastrointestinal walls helping the prevention of gastrointestinal diseases.
- It reduces oxidative stress and improves meat quality.
