LIPI PRO

DESCRIPTION

LIPI-PRO is a complementary feed based on monoglycerides of medium chain fatty acids (M.C.F.A.), obatined by distillation and esterification of palm and coconut.
The synergistic action of the MCFAs controls intestinal flora within the digestive tract, with an antagonistic effect against Gram-positive (Streptococcus, Staphylococcus, Clostridium) and Gram-negative (E. coli, Salmonella spp.) bacteria, rebalancing the flora. It works optimally when used with SCFAs such as formic, acetic, and lactic acids.

COMPOSITION

MCFA 51%, of which:

- *C6 ~ Caproic Acid 12,0 %*
- *C8 ~ Caprilic Acid 35,0 %*
- *C10 ~ Capric Acid 26,5 %*
- *C12 ~ Lauric Acid 26,5 %*

MODE OF ACTION

The MCFA contained in LIPI-PRO (C6-C8-C10-C12) can carry out an antibacterial action on the digestive tract. Fatty acids can control pathogen proliferation with the following mechanisms:

- Damages cellular cytoplasmic structures causing their lysis
- It modifies the cell membrane by increasing its permeability and also reducing its ability to adhere to the intestinal epithelium.
- Improves the assimilation of nutrients
- It reduces the antibiotic resistance and the use of zinc in the feed

RECOMMENDED DOSAGES

LIPI-PRO can be used pure or mixed with complete feed, pelletted or flour

Piglets	1,5-3 Kg/ton
Pigs weaning	1 Kg/ton
Pigs fattening	0,5 Kg/ton
Sows	1-2 kg/ton
Calves	1-3 Kg/ton

Broilers 0-14 days	2-3 kg/ton
Broilers from 15 days	1-2 kg/ton
Egg layers	1,5-3 kg/ton
Turkeys	1,5-3 kg/ton
Sheep-Goat	1-3 Kg/ton

TECHNICAL SPECIFICATIONS

- Appearance: powder
- Odour: specific
- Colour: white

Available in 25 kg sacks. Store in dry and fresh place far from heat. Do not freeze.
Shelf life: 12 months from the production date. GMP+ FSA assured.
