Olus (Elan) C12

DESCRIPTION

Olus® C12 is an monolaurin on a clay mineral carrier. Olus® C12 strengthens the immune system against viruses and Gram-positive bacteria (such as Streptococcus and Staphylococcus). Alpha-monolaurin is a natural component found in breast milk. It is a molecule with both hydrophilic and lipophilic parts; this unique quality allows α-monolaurin to function as a "lipid emulsifier" and enables it to be partially transported into the systemic circulation via the intestinal lymphatic system.
This provides the animal with an immense advantage in its fight against pathogens.

COMPOSITION

- 40% (+/-1,0%) mono, di- and tri glycerides of lauric acid
- Bentonite
- Silicic Acid
- Glycerol

RECOMMENDED DOSAGES

Olus C12 can be used mixed with complete feed, pelletted or flour

Piglets	2-4 Kg/ton
Gestation sows	2 Kg/ton
Goats	0,5-3 Kg/ton
Broilers	0,75-1,5 kg/ton
Egg layers	1-2 Kg/ton

TECHNICAL SPECIFICATIONS

- Appearance: powder
- Odour: specific
- In accordance with regulation (EC) No 178/2002 complementary feed for animals.

Available in 25 kg sacks. Store in dry and fresh place far from heat. Do not freeze.
Shelf life: 24 months from the production date. GMP+ FSA assured.
