Orbit Choline DS

DESCRIPTION and INGREDIENTS

Orbit Choline DS is a blend of herbs (Camellia sinensis, Pithraj tree, Ginkgo biloba, Bacopa monnieri, Centella asiatica, Asparagus racemosus, Cassia fistula, Ocimum sanctum) scientifically developed to provide the same bioactivity as choline and biotin. In ruminants, particularly during the transition period, it improves health and performance.

ANALYTICAL VALUES

Umidità/Humidity	3,80 %
Proteina grezza/Crude protein	8,96 %
Cellulosa grezza/Crude fiber	33,00 %
Oli e grassi grezzi/Crude oil and fats	1,00 %
Ceneri grezze/Crude ashes	26,50 %
Estrattivi inazotati/N.F.E.	31,73 %
Sodio/Natrium	1,70 %
Lisina/Lysine	0,44 %
Metionina/Methionine	0,13 %

MODE OF ACTION

- Improves the mobilization of fats (especially liver fat)
- Prevents various deficiency syndromes such as osteoporosis and fatty liver
- It helps in the synthesis of phospholipids, necessary for the mobilization of fat in the ovary, therefore improves egg production
- Improves growth, hatchability, increased egg production and better F.C.R.

RECOMMENDED DOSAGES

350 gram of **Orbit-Choline DS** can replace 1 kg of synthetic choline chloride (60 %) and 160 mg synthetic biotin Mix in an accurate way in the premix. In dairy cows, the dosage ranges from 10 to 16 g/animal/day, depending on milk production. For sheep and goats, the dosage ranges from 4 to 6 g/animal/day.

TECHNICAL SPECIFICATIONS

- Appearance: powder
- Odor: typical
- Product classification: complementary feed

Available in 25 kg bags
The label shows the description of the product, the production date, the expiry date and the lot number
Store in a cool and dry place, away from heat sources. Consume within 36 months from the date of manufacture.
